

## 日本脳炎予防接種について・英語 About Japanese Encephalitis Vaccination

The Japanese Encephalitis vaccine is administered in a total of 4 doses.

- ①: Stage1-1<sup>st</sup> dose    ②: Stage1-2<sup>nd</sup> dose    ③: Stage1-additional    ④: Stage2

People born from 2009/Oct/1 until one day before the age of 20 had the influence of the suspension of the vaccine by the government and were not able to vaccinate, period of Fiscal year 2005 (2005/Apr/1 to 2006/Mar/31) to Fiscal year 2009 (2009/Apr/1 to 2010/Mar/31). For these people there is a certain deadline that they can vaccinate through the form, as a public vaccination.

### 【Important contents when vaccinating】

- (1) When one of the Parents cannot accompany children under 13 years of age, they may vaccinate only with the presentation of the Authorization form-ininjou.
- (2) Girls over 13 years old, present form with question about pregnancy.
- (3) Over than 13 years old, unaccompanied by one of the Parents, may vaccinate only with the submission of the Consent form-douisho.
- (4) From the date you register the address in another city, do not use the Iwata City form. Search the vaccination section-*yobou sesshu tantouka* of the new city.

### お子さんの生年月日はいつですか？ What is the child's birth date?

### 残りの回数は何回ですか？ Missing how many doses?

- ①: Stage1-1<sup>st</sup> dose    ②: Stage1-2<sup>nd</sup> dose    ③: Stage1-additional    ④: Stage2
